Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Thursday 22 Jul 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Dry but becoming cloudy overnight. Warm Friday with sunny spells.

This Evening and Tonight:
Low cloud, hill and coastal fog drifting back inland overnight, becoming widespread by morning. Otherwise, dry with clear skies further to the west during the evening. Another warm and muggy night to come, especially underneath the cloud. Minimum temperature 15 deg C (59 deg F).

Friday:
Early low cloud will retreat back to the coast by day, leaving another day of plenty of warm sunshine, although hazier compared to recent days. Feeling cooler along the coast. Maximum temperature 23 deg C (73 deg F).

Outlook for Saturday to Monday:
Low cloud will give way to warm sunny spells on Saturday. Mostly fine on Sunday, but low cloud and drizzle along the coasts. Turning unsettled with some rain on Monday.
